Put an "x" in the session box for each badge/activity you would like to work on at camp. Some badges/activities require more than one session to complete. Some badges/activities have prerequisites that must be done at home prior to attending camp. Failure to complete prerequisites will result in a "partial completion" of the merit badge. If possible, work on recommended requirements at home prior to camp as time or conditions may not allow these to be completed at camp. Some badges have age or rank requirements. Scouts should consider the difficulty rating of the badges and plan accordingly.
